Pathanamthitta Dist.
Govt. of Kerala**

**Kanishk, IAS
Addl. Commissioner
Com. Taxes (Enforcmnt.)
Govt. of Karnataka**

Event Objectives — Spaceship 2026

- **Inspire Student Innovation**

We want to spark curiosity and creativity among students—to push them to think beyond academics and imagine how technology and AI can create real-world impact. It's about helping ideas evolve from classroom concepts into something tangible — a viable startup or an impactful project that matters.

- **Build a Bridge Between Academia and Industry**

Spaceship will bring together students, startup founders, investors, and tech leaders creating a space where ideas meet real-world experience. The goal is to give students exposure to entrepreneurship, product building, and AI-driven innovation along opening doors for mentorship and collaboration.

- **Celebrate Creativity and AI Empowerment**

We see AI as a tool that amplifies human potential — not something that replaces it. Through this event, we want to celebrate creativity, originality, and the kind of innovation that makes a difference — whether that's solving a big problem or simply reimagining what's possible

Participant Benefits:

- **Cash Prize to the best startup**
- **Mentorship & Incubation Support**
- **Networking with Startup Founders & Policy makers**
- **Certificate to each participant**
- **Investor Support opportunity**

In Association With **TrueAtom, USA**

SPACESHIP
