**DATE :** Friday, January 11, 2019  
**SUB :** ANNUAL MAINTENANCE CONTRACT (AMC)  
**TO :** B.A College of Engineering and Technology, Jamshedpur

**ATT :** The Principal

Dear Sir,

**REF :** Oréll Digital Language Lab Software installed at your institution

Thank you very much for patronizing our products and services. While it's indeed been a privilege and an honour to serve you, we would like to bring to your attention that the 100% free-of-cost onsite support and software updates for the iTell Digital Language Lab Software has expired.

While the software has a perpetual lifetime license, we would like to inform you our in-house team of technocrats periodically tweak and update the software for optimal performance and ease-of-use. When a major change is incorporated these are often sold at a premium price as the latest version similar to the Microsoft Operating System's (OS) metamorphic change down the ages from the iconic Windows 95 to the latest Windows 7 OS.

Nevertheless, we would like to reiterate that while your existing version of the software will continue to offer you trouble-free lifetime usage, it is indeed advisable to switch or keep abreast of the latest versions and updates unlike your everyday cell-phone which very often becomes outdated within months of procuring one as technology is rapidly changing in leaps and bounds.

As guaranteed in the terms and conditions of the sale we have been giving you 100% free onsite support and product-updates for the first twelve months from the date of purchase. As an esteemed customer we would like to recommend that you opt for our AMC or Annual Maintenance Contract program which offers you the option to continue to receive product updates and free onsite support for an additional 12 months at just **Rs.16,830** (Rupees Sixteen Thousand Eight Thirty Only) per annum and would like to request you to take advantage of the same. **This AMC is inclusive of software and content or study material updates if any.**

New content added to help students master the language quicker and faster. Some of the currently available updates include among others a more simplified interface, gender indication, facility for the teacher to correct student assignments and send them back for student review, remote shut-down of student machine options, "live" class with dictation facility, grouping and pairing features as well as content updates such as choice of questions with instant answers et cetera.

If you are desirous of availing of our AMC option, do sign and seal the enclosed AMC Application Form and mail the same back to us with the 100% payment in advance for us to do the needful.

Thanking you once again and assuring you the finest of our services at all times

Yours sincerely
